

Requirements :

Under Alumni Registration :

1. When alumni will enter his/her email, there should be **email verification** provided . Only after doing successful email verification , alumni can register further . If alumni enter wrong OTP in email verification it should display **wrong OTP**, and if alumni enter right OTP in email verification , then it should display **Email verified**.

2. Inside Admin Login :

1. Alumni Report Module.
2. Inside that module there should be one **search bar** where admin can search alumni using **passout year** and using his **course**.
3. After searching done it will show list of alumni as per passout year and as per course , then there should be one option of **print report**. So can admin print the alumni list as per passout year and as per course.

After alumni list gets display as per passout year and Course there should **print List** option available.

3. Sliding images on home page of site.
